

Welcome to the **Design a Dream Destination (Explore AI) lesson plan!** This document provides an overview of the two lesson options available: a 60-minute lesson and a 120-minute lesson. Please read through the details below to understand which units and slides correspond with each lesson option before diving into the curriculum.

60-Minute Lesson Plan

If you choose to teach the 60-minute lesson you will follow the lesson outline below. Please note that in the “Explore AI Instructor Guide” and “Explore AI Instructor Guide Slides” all units are covered, and you will need to skip certain units to fit within the 60-minute timeline.

Outline:

- **Introduction and Core Units (25 minutes)**
 - **Welcome**
 - **What is Generative AI? (5 minutes)**
 - Definition and examples of generative AI.
 - Discussion on ethics and responsibility in using AI.
 - **Slide: 3**
 - **What is Microsoft Copilot? How does it work? (5 minutes)**
 - Overview of Microsoft Copilot and its functionalities.
 - Explanation of how generative AI works using neural networks.
 - **Slides: 4-5**
 - **Guidelines for Effective Prompting (3 minutes)**
 - Creating effective prompts for Copilot.
 - Importance of context and clear expectations.
 - **Slide: 6**
 - **About the Program (2 minutes)**
 - Objectives of the program, what learners will walk away understanding
 - **Slide: 7**
 - **Unit 1: Getting Started (10 minutes)**
 - Step by step instructions for logging into Copilot
 - Step by step instructions for navigating to the learning path on MS Learn
 - Instructions for saving the learner PowerPoint
 - **Slides 8-10**

- **Interactive Activities (30 minutes)**
 - **Unit 2: Define Your Idea and Set the Context (20 minutes)**
 - Creating role-based prompts.
 - Defining the idea for a dream destination.
 - **Slides: 11-16**
 - **Unit 3: Create Your Hero Image (10 minutes)**
 - Generating a hero image using Copilot.
 - **Slide: 17**
 - **Summary and Overview (5 minutes)**
 - Recap of what was learned.
 - Reflection on the importance of generative AI.
 - **Slides: 29-31**
-

120-Minute Lesson Plan

If you choose to instruct the full 120-minute lesson, you may follow the “Explore AI Instructor Guide” and “Explore AI Instructor Guide Slides” as normal, you do not need to remove or skip over any units. Please see below for the detailed outline.

- **Introduction and Core Units (25 minutes)**
 - **Welcome**
 - **What is Generative AI? (5 minutes)**
 - Definition and examples of generative AI.
 - Discussion on ethics and responsibility in using AI.
 - **Slide: 3**
 - **What is Microsoft Copilot? How does it work? (5 minutes)**
 - Overview of Microsoft Copilot and its functionalities.
 - Explanation of how generative AI works using neural networks.
 - **Slides: 4-5**
 - **Guidelines for Effective Prompting (3 minutes)**
 - Creating effective prompts for Copilot.
 - Importance of context and clear expectations.
 - **Slide: 6**
 - **About the Program (2 minutes)**
 - Objectives of the program, what learners will walk away understanding
 - **Slide: 7**

- **Unit 1: Getting Started (10 minutes)**
 - Step by step instructions for logging into Copilot
 - Step by step instructions for navigating to the learning path on MS Learn
 - Instructions for saving the learner PowerPoint
 - **Slides 8-10**
- **Interactive Activities (90 minutes)**
 - **Unit 2: Define Your Idea and Set the Context**
 - Creating role-based prompts.
 - Defining the idea for a dream destination.
 - **Slides: 11-16**
 - **Unit 3: Create Your Hero Image**
 - Generating a hero image using Copilot.
 - **Slide: 17**
 - **Unit 4: Make a Grand Entrance**
 - Designing the entrance to the dream destination.
 - **Slide: 20**
 - **Unit 5: Brainstorm Destination Features**
 - Creating key features for the destination.
 - **Slide: 21**
 - **Unit 6: Plan the Menu**
 - Visualizing the menu for the destination.
 - **Slide: 24**
 - **Unit 7: Ideate Ambience and Music**
 - Creating a playlist and setting the ambience.
 - **Slide: 25**
 - **Unit 8: Create Branding Material**
 - Designing branding materials for the destination.
 - **Slide: 26**
- **Summary and Overview (15 minutes)**
 - Recap of what was learned.
 - Reflection on the importance of generative AI.
 - **Slides: 28-31**
